THE ALTERNATE LOGO

Over the course of his career both as a competitor and coach, Dan Gable has had many iconic poses that are easily recognizable as Gable. When creating the logo for Dan Gable Donnybrook we had too many to choose from. So... we decided to start an alternate logo collection. We are excited to unveil the first alternate Dan Gable Donnybrook logo for the 2023 tournament.

For the first alternate logo, we chose the iconic Gable pose from the 1988 Iowa vs. Iowa State Dual on January 16th in Carver-Hawkeye Arena. It pitted the #1 Iowa State Cyclones vs. the #2 Iowa Hawkeyes. The picture where the pose was taken from is after the HWT match in one of the greatest duals of all time.

In the previous 13 years, these two teams had won every national title. The year before Iowa State had ended Iowa's 9-year run of National Team Titles and Iowa was on a 43-meet winning streak at Carver Hawkeye Arena. Iowa State had the dual in hand before their defending national champion Eric Voelker who was 19-2 (Iowa State) at the time was pinned by Brooks Simpson who was 3-2 (Iowa) in what some dubbed "The Pin Heard Around the World". Some that were there said it was the loudest Carver-Hawkeye Arena has ever been.
